

FEEDING CLINIC

The Feeding Clinic provides a personalised, supportive service for families through stressful or difficult mealtimes with the aims of helping children enjoy food and create happy mealtimes.

Our feeding team work with families by:

- creating & implementing plans for confidence at mealtimes
- individualised coaching for parents
- targeted therapy for children to build confidence with exploring new foods

A unique team to support you & your child

Conditions/ concerns we can help with:

- **Stressful** mealtimes
- Babies finding it difficult to **transition to solids**
- **Restricted eating** including limited range of accepted foods or anxieties around new food
- Difficulties with **biting/chewing/swallowing**
- Dietetic concerns including **weight management, constipation, dietary intake** and diagnoses requiring dietetic support
- Breastfeeding & bottle feeding (please see lactation services flyer)
